Declaration regarding the submission of a project proposal in the context of the special call “Digital Health in Developing Countries” by Else Kröner-Fresenius Foundation

Project title:	Telehealth Services for Myanmar (Telekyanmar Project)
Project goal:	To improve health care access and quality in conflict-affected areas of Myanmar through telemedicine and capacity-building initiatives
Applicant organization in Germany:	Goethe University Frankfurt
Applicant organizations in Myanmar:	Karen Department of Health and Welfare Health Department, Kachin Political Interim Coordination Team Health Department, Karenni State Interim Executive Council Telekyanmar Telemedicine Team, Ministry of Health, National Unity Government of Myanmar

Dear Madam / Sir:

We are very happy to confirm our active participation in the planned project and our cooperation with the above-mentioned partner organisations.

We confirm that the proposed project matches the existing needs in our partner country Myanmar, and that the project goal and objectives are based on the regional contexts of the partner country.

We confirm that the project is non-profit and contributes to the public interest.

We confirm that the project takes into account or promotes gender equality, addresses the needs of disadvantaged or particularly vulnerable groups, regardless of religion, skin colour or nationality, and will be implemented according to internationally agreed humanitarian and medical principles.

Sincerely yours,

Dr. Ulrich Kuch

Abteilungsleiter Tropenmedizin und Global Health
